CPRE Staffordshire Best Kept Village Community Award 2021

Brewed BKVC Committee:

CPRE Staffordshire has selected Brewed BKVC Committee, along partnership groups Brewed Litter Picking Champions, Brewed Civic Society, Friends of Barnfield Sandbeds etc., to receive its special award not just for their impressive involvement of the wider community but also for their commitment to environmental and well-being matters.

Brewed has shown dedication to its community and natural environment through numerous groups and activities spanning a diversity of age groups and backgrounds and, in addition, welcomed visitors through its organised tours, support for the Duke of Edinburgh Award and weekly hosting of working parties, for students with disabilities, from Rodbaston College.

Brewed's work with its Litter Picking Champions, Bloomers Champions, Recycling Matters and Civic Society, amongst others, has helped maintain an attractive and friendly village. Its work on its local nature reserve, Barnfield Sandbeds, with many groups including Friends of Barnfield Sandbeds, local schools, Brownies, Guides and Cubs has helped to build and sustain an environment supporting of nature & biodiversity and both education and leisure for locals and visitors alike.

The project of designing, creating and donating 17 plaques (denoting images of animals and plants) to the Barnfield Sandbeds reserve has particularly captured our imaginations here at CPRE Staffs. The project demonstrates an ingenuity behind engaging young, and older alike, to connect with a fun and inspiring journey through the landscape they have worked so hard to protect and enhance for all to enjoy.
